№ 097 from 16.09.2010

To AMF President
 Mr. Rolando Alarkon

Dear sir President!

I have been very surprised, when I have received your letter which you addressed to all AMF members .

If you have decided to write this letter it was necessary to write the truth about mutual relations between AMF and UEFS. If you stand up that all decisions put into practice, you are not receded from the accepted decisions you are deeply mistaken. And it is very good , that many federations know about it. Therefore I would like to ask you following questions, since first days:

1. When I fulfilled duties of FIFUSA president I come to contact with you about amalgamation, we have agreed that on the congress we will solve, as our World Federation will be called AMF or FIFUSA. You have broken this understanding.

2. In 2003 you have asked me that the World championship in 2007 has passed in Russia, and we undertook the World championship organization. But then thanks to the big diligence of Mr. Bonettini you have deprived Russia World championship carrying out. And your translator after it has prepared the letter which I have signed, that I ostensibly refuse from the organizing of World championship.

To extinguish scandal, I have invent World Cup carrying out with your support. But you well know, according what conditions the national teams of Paraguay and Argentina have arrived to Russia. We had to render the financial assistance 20 000 US \$ to Paraguay and Argentina. Only after that, they have arrived.

3. World championship carrying out in Catalonia. I would like to know also how Galicia has put there, if it has not taken place in the European Championship, as a selection tournament for qualifying to World Championship.

4. It would be desirable to find out, how it was possible that Australian federation, which was participated in a World Cup and in open European competitions, to replace after two years for other Australian federation.

5. We planned to organize the World championship of 2011 in Belarus. You haven't arrived to Belarus for inspection. Though you have told that you have bought Lufthansa flight tickets. Belarusian side have found out that Lufthansa flight tickets were not reserved on your name and to the name on your translator also. I would like to know, where truth?

6. Concerning the World championship in Colombia, you well know that Europe has received 5 places and because of refusal of France, Norway, Italy, Bulgaria, Slovakia, Poland to participate in the European championship according to the financial reasons, we have compelled to change structure of participants at the last moment. After the February UEFS Congress all Federations have warned about necessity to solve financial problems with AMF. Anybody hasn't paid to you except Russia.. And if you adhere to a law letter you should not admit to World Championship anybody from Europe except Russia. It is good that you haven't made such decision. And when we have met in

Lloret-de-Mar in June, we decide with you, who will participate in World Championship from Europe , and I even have paid payments for Belarus and South Ossetia. Then through a small time interval I found out that you want to change participants behind my back. Instead of Belarus, Catalonia and South Ossetia you wanted to invite Norway, France and Galicia.

It is good that my sharp protests have reached you. And you have put those countries, which have got it according the sport results of European Championship.

As I think , if there were no my ultimatums, I think that carrying out of the World championship and reputation AMF would be damped.

I think it is not necessary to mislead AMF members, concerning the inclusion futsal to the Olympic program. You as AMF president couldn't even defend futsal participation in the World games in Colombia in 2013.

All problem's moments between AMF and UEFS we discussed during UEFS Congress .

In the conclusion I want to wish you, Mr. President and Mr. Secretary General, henceforth at acceptance of any decisions to weigh all pro and contra and to consult withUEFS.

Also I want to hope that your attacks to UEFS will stop.

UEFS President

Valery Akhumyan
